Job Preference: Full-time | Frontend Developer | [Portfolio](#)

Location Preference: Open to relocate across Dubai, Sharjah, and Abu Dhabi

Summary : Frontend Developer with 2+ years of experience building responsive, high-performance eCommerce websites using Magento, Shopify, ReactJS, and Next.js. Skilled in HTML5, CSS3, JavaScript, Tailwind CSS, and integrating RESTful and GraphQL APIs. Proven track record in optimizing frontend performance, collaborating with cross-functional teams, and delivering client-centric solutions. Contributed to an award-winning AI recommendation engine at MACHathon 2024. Experienced with Docker-based environments, authentication (JWT, OAuth), and headless commerce using Shopify Hydrogen. Adept at translating design mockups into scalable UI components while maintaining code quality through ESLint and modern best practices.

Key Skills:

HTML5, CSS3, Javascript, JQuery, ReactJS, Bootstrap, TailwindCSS, Magento 2 and Shopify

WORK EXPERIENCE

Terrific Minds, Infopark Kochi, Kerala, India

June 2023 – March 2025

Software Engineer

- Developed and customized responsive Magento themes using HTML5, CSS3, JavaScript, jQuery, and Knockout.js.
- Contributed to an AI-powered product recommendation engine during MACHathon 2024, from ideation to MVP. Project was recognized as an [Innovation Champion](#) by Bold Commerce.
- Delivered 5+ eCommerce projects. Worked on Magento projects including [Novo Shoes](#) (AU, NZ, UK), [Shoe Connection](#) (AU, NZ), and Ipanema, as well as Shopify projects such as [House of Nova](#) and [Azha](#) (UAE-based).
- Integrated third-party services such as Searchspring, and implemented custom features based on client requirements.
- Optimized frontend performance using Lighthouse, GTmetrix, and Magento's built-in caching, boosting page speed scores and reducing load time by over 20%.
- Participated in project estimation, planning, and sprint discussions to align development with business goals.
- Familiar with Docker-based environments, ensuring consistency across development and production setups.
- Maintained high code quality using ESLint, following best practices across all projects.
- Collaborated with backend developers to integrate REST and GraphQL APIs, and Magento core services.
- Implemented third-party extensions and custom libraries for both Magento and Shopify, including features like free shipping bar and free gift based on cart value.
- Attended client meetings, translated specifications into actionable features, and contributed ideas to improve project outcomes.
- Mastered Shopify Hydrogen framework and established best practices for headless commerce architecture, enabling 10% faster page load times through decoupled frontend and backend systems for enhanced user experience.

DCKAP, Chennai, TamilNadu, India

July 2022 – January 2023

Software Engineer

- Converted Figma mockups into responsive and dynamic frontend interfaces using ReactJS, Next.js, and Tailwind CSS.
- Contributed to the development of [DCKAP Commerce](#), a B2B eCommerce platform tailored for distributors. Participated in brainstorming sessions to design scalable and user-friendly features.
- Revamped legacy websites by migrating styles from CSS3 to the latest Tailwind CSS standards, improving maintainability and performance.
- Developed core features for [BigCommerce](#) projects, including Quotes Page, Quote Details, Product Listing, Add to Cart, and Checkout Pages.
- Collaborated closely with backend developers to integrate APIs and business logic using Fastify.js, MongoDB, and Mongoose.

- Implemented secure authentication and authorization flows using JWT and OAuth.
- Built and maintained RESTful and GraphQL APIs for frontend integration and third-party services.
- Monitored and optimized application performance for better scalability and system reliability.

EDUCATION

Government Engineering College, Thrissur

2018-2022

B.Tech in Production Engineering

Skills & Interest

- Technical:
HTML, CSS, Javascript, ReactJS, TailwindCSS, Bootstrap, Magento, Shopify, GSAP, SEO and technical content writing.
